What's Happening!

Upcoming Public Safety Personnel Retirement System (PSPRS) Education Curriculum Seminars

Join us as we provide guidance on successfully retiring from PSPRS. Discuss topics such as your PSPRS benefits, options, how to avoid tax penalties, social security and more. This presentation provides strategies for financial fitness. We discuss concepts for financial stability and how to build wealth while avoiding financial pitfalls.

Welcome to the Team

Please join us in welcoming the newest member of the Galloway Team

Taylor Galloway started her college education at the University of Hawai'i Mānoa. Transferring to Arizona State

University, she completed a Bachelor of Science in Biochemistry and a minor in Business from W.P. Carey.

Her parents both retired from the Mesa Police Department; so, she has seen firsthand the sacrifice and commitment it takes for public safety members to serve their communities. She has a passion for wanting to serve the Public Safety community.

Outside of work Taylor enjoys hiking, traveling, spending time with loved ones, and trying new restaurants around the Phoenix area.

To Be or Not To Be

For members of Public Safety, the question of Social Security benefits can be a tricky one. Some agencies' employees pay into Social Security, while others do not. So how do you know what if any role Social Security will play in your retirement plan? Will you collect benefits? How about your spouse?

View the Social Security video below and then contact one of our advisers at 480-325-8668 to find out your options and plan for your retirement.

Market Review

The US trade war with China has been battling on since January 2018 when the US first announced tariffs on imports of solar panels and washing machines from China. Since then, both the US and China have continued to increase tariffs against each other's imports. The ongoing trade tensions with China continue to add to volatility and uncertainty in the markets.

What do we need to do as investors?

1. Prepare - Prepare for market volatility. At the core of PSF/Galloway's investing principles has always been diversification and downside risk mitigation.
2. Stay Disciplined - Have a disciplined approach to investing, stay the course and avoid knee-jerk reactions.
3. Keep it Real – Have a realistic outlook on returns for the rest of the year. It is important to look at your long-term goals and not just measure returns over short time periods.

Our advisors are available if you have questions or want to review your current investment plan. Call us at 480.325.8668 or visit our website at galloway911.com.
